DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 1-5 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-5 are directed to abstract ideas. For a claim directed to an abstract idea to be statutory, the claim must be for a practical application, which may be shown by a physical transformation or by producing a result that is concrete, tangible and useful (See MPEP § 2106, IV.C.). Since the claims do not include a physical transformation or produce a result, the claims are nonstatutory.

Response to Arguments

3. Applicant's arguments with respect to claims 1-5 have been considered but are moot in view of the new ground(s) of rejection.
